## EDUCATION

### Bachelor of Technology degree in Cybersecurity

2016 - Expected 2022

Federal University of Technology Akure

Major in Cybersecurity; Minors in Computer science and Mathematics.

A fourth year student having the knowledge in:

- Object Oriented Programming
- Fundamental of principles in cybersecurity and information security which includes laws & ethics, policy & guidelines and security awareness.
- Computer Network and system administration
- Digital design
- Digital forensic
- Computer troubleshooting
- Window and linux operating system
- Secure and resilient software development
- Data structure and algorithms
- Theory of computation
- System analysis and design
- Fundamentals of cryptography
- Software defined networks
- Enterprise and perimeter security

## WORK EXPERIENCE

### Community Member

2020

Diary of Hackers

A community of CyberSecurity Enthusiasts aimed at learning,sharing ideas on cybersecurity,information security.

### Campus Blockchain Hackathon'19 participant

2019

Campus Blockchain Hackathon'19

Participated as a Team solving a problem in LAND ACQUISITION using blockchain technology.

### Community Member

2019 - Present

Google Developer Student Club FUTA

A community of tech enthusiasts where we learn,train and share ideas & build around google technologies.

### Community Member

2018 - Present

CyberComm\_ng

A community of Security Enthusiasts aimed at learning,sharing ideas on cybersecurity,information security & security related.

## CodeLagos

An initiative organized by Lagos state Ministry of education aimed at making coding education accessible to Lagos Education.

## NaijaHack'19 Hackathon participant

Online: Dec 7-14 '19 - Demo Day: Dec 17 '19

Africa's biggest hackathon

Nigeria official Hackathon set up to generate ideas from young nigerians with necessary skills with the use of technology to solve problems by creating solution in different sectors.

Participated as a Team of 3 called TRENT, applying blockchain to transform real estate for greater transparency and accountability.

---

SKILLS

## Microsoft

Powerpoint, Excel, Access

Web Application  
Development

HTML, CSS, JS

## Operating System

Linux, Window Os

## Algorithm and Computation

Java and Python

Writing, Public speaking and  
Reading

English and Yoruba Language

## Business and Leadership

Organisation & teamwork, self motivated & managing, positive minded and also yearning to learn more from people that are tech-driven.

## Project management

Gantt chart, Pert chart, Virtual control system (GitHub) & Agile methodology

## System analysis and design

Critical & analytical thinking, Communication and technical knowledge

work best with Agile method of system development methods, more flexible and responsive, attempts to develop a system incrementally by building a series of prototype and constantly adjusting them to user requirement,

## ACADEMIC PROJECTS

---

### Image processing

March 2021

- Obtaining complement image from the original image

### Biometric Analysis

March 2021

- Analyzed how fingerprint recognition works using **MatLab**

## ADDITIONAL INFORMATION

---

Certification of completion[Cybersecurity virtual case experience],[TryHackMe OWASP Top 10 vulnerability],Diary of Hackers[NETWORKING]

## INTEREST

---

Reading ,Travelling and attending Tech meetups
